It takes more than just hard work to become part of a legend. It takes a commitment to exceed the expectations of our customers in every way possible. It takes unparalleled performance in everything we do. From 24 hour order turn around to industry leading fill rates, a no hassle return policy and a willingness to do everything it takes to help you succeed. At Legend Hydronics, the newest division of Legend Valve and Fitting, we guarantee the same service you've come to expect.

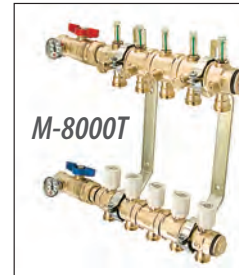

LegendFlex tubing is also compatible with cold expansion type fitting systems (compliant with standards ASTM F2080 & ASTM F1960). Its strength, durability and thermal memory enables proper seal with crimp or expansion style connections.

LegendFlex™ Introductory Offer

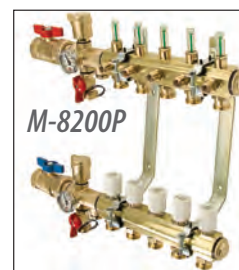

Use Legend brass manifolds and LegendFlex heating tube on your next radiant project and receive a FREE 1/2" X 300' coil of LegendFlex heating tube for each Legend brass manifold purchased.*

Please register for this offer now at:
www.legendhydronics.com/tubingspecialoffer

This offer is for the contractor using Legend brass manifolds and LegendFlex for the first time. It is subject to inventory availability and may expire without prior notification. PLEASE REGISTER FIRST and have your registration confirmation handy when placing your order.

All Legend manifolds and accessories are guaranteed to ship in 24 hours

Introducing LEGENDFlex™ Heating Tube

Combine Legend brass manifolds and LegendFlex™ tubing for your next project and receive FREE heating tube

*Subject to inventory availability, offer may expire without prior notification. Offer limited to one order per contractor. Non-transferable. Brass manifolds and PEX heating tube ordered must exceed \$1500 Legend list price value (before free coil). Shipping not included in calculating the minimum purchase requirement. One 1/2" x 300' coil of LegendFlex heating tube for each Legend brass manifold purchased, limited to a maximum of 3 coils per contractor. If using different size LegendFlex tubing, substitute \$240 Legend list value for each manifold purchase up to 3 manifolds. Offer applies to LegendFlex tubing only.

**Downstream
Thinking.**

It's all about Performance

Legend Hydronics is a division of
Legend Valve & Fitting, Inc.

LEGEND Flex™ Heating Tube

Manufactured from a proprietary polymer formulation which dramatically increases flexibility and maintains high strength.

Available in: 3/8", 1/2", 5/8", 3/4" and 1" tube sizes. LegendFlex™ delivers greater performance and flexibility than standard PEX. We are so confident in its performance we back it with a 30 year warranty.

LegendFlex is extremely flexible and very difficult to kink. In the unlikely event one should occur, simply repair it with a heat gun. No need to cut and use a coupling or replace the tubing.

Residential, commercial and industrial applications include:

- Radiant Heating and Cooling
- Snow & Ice Melt
- Geothermal
- Turf Conditioning

Contractors can combine Legend brass manifolds and LegendFlex heating tube for their next project and receive one FREE ½" X 300' coil of LegendFlex heating tube for each Legend brass manifold purchased (limit 3). Subject to inventory availability. (may expire without prior notification) Details on back.

Legend brass manifolds are available in 1", 1-1/4", 1-1/2", & 2" guaranteed to ship in 24 hours

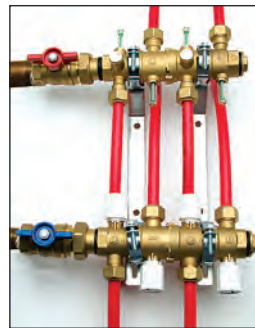

Legend brass manifolds – balance and perfection from every angle

Legend brass manifold accessories are interchangeable throughout the entire offering

All Legend brass manifolds can be mounted at any orientation

Optional angle isolation valves available for where space is limited and manifold supply & return piping feeds from above or below

M-8000 Modular™ Manifold circuit sections rotate allowing tube to be routed from above or below the manifold offering the ultimate in job site flexibility

Legend-Press™ isolation valves feature two EPDM O-rings and deep sockets to ensure a perfect seal with every press

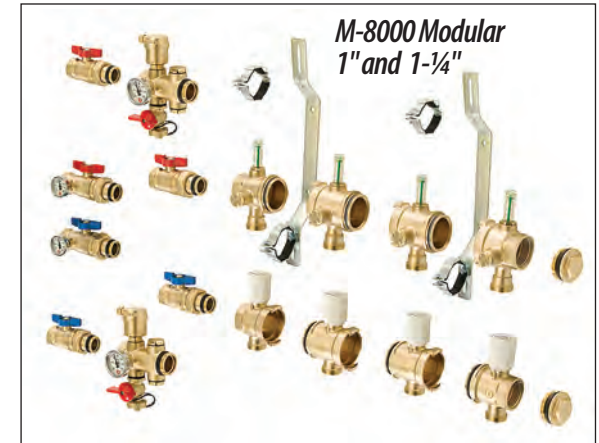

4-wire or 2-wire, 24 V thermal electric valve actuators for the M-8000 and M-8200 offer optional individual circuit zone control

M-8000 MODULAR™ Manifold System

The M-8000 Modular™ Manifold System guarantees you'll always have the manifold you need when you need it. Its precision-designed individual components can be easily customized to any solution a project requires.

With the M-8000 you stock less inventory yet accommodate a project's needs on-site, on-time and at the right price.

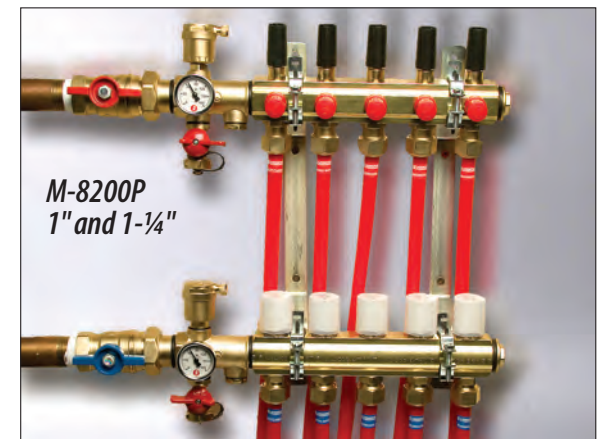

M-8200 PRECISION™ Brass Bar Manifold Series

The M-8200 Precision™ Manifold Series gives you a quick out-of-the-box installation with the options you need making it a perfect fit for every job.

M-8200: Balancing valves – integrated memory stops

M-8200T: Isolation valves – built in thermometers

M-8200P: Precision adaptor – thermometers; air vent; fill and purge valve

M-8220 HIGH CAPACITY™ Brass Bar Manifold Series

The M-8220 High-Capacity™ Manifold Series is ideal for snow and ice melt systems or larger commercial and industrial projects. It offers a ready to install alternative to custom built distribution manifolds.
