LEGENDFLEX®

Oxygen Barrier PEX Tubing

Manufactured from Legend's proprietary formulation, which dramatically increases flexibility, while maintaining high strength and durability.

Backed by a 30-year warranty.

The externally-extruded EVOH oxygen barrier reduces oxygen molecule permeation into the water, virtually eliminating corrosion within the system.

Packaged in sunlight-blocking containers or wrap, to protect the tubing from UV-light oxidation.

Numerical foot markings permit circuit loop calculations, preventing excess circuit loop lengths.

Ideal for radiant heating and cooling, geothermal, and snow and ice melt systems.

Available in nominal tubing sizes SDR-9 - CTS Pipe Sizes.
